

Safety Instructions

The maximum weight limit is 45 pounds. Please do not climb or stand on the table as it will cause damage to the product and the person.

After assembling the legs, check that all connections are secure so table does not collapse

The products leg height can be adjusted to approximately 22 inches, 25 inches and 28 inches. Make sure legs are clicked into place before using table

When playing on the table outside, be sure it is placed on stable ground in a dry place. Leaving the table exposed to weather, especially direct sun, rain and salt air, will speed the weathering process.

Completely dry the table before storing and after each use. Wet, spilt beverages should be wiped clean after each use as the contents can damage the table top

Clean only with a damp cloth. Do not use strong industrial cleaning substances or abrasive material so this will damage the table top.
